The University (Eric Barron's admin.0 implemented all of our recommendations. The Koch agreement issues related to faculty control of the curriculum and academic freedom were addressed and there is no longer a conflict. I think that yes, they addressed all the concerns.
Jayne

We have been asked to provide our opinion on the second agreement to indicate whether we feel that the changes made addressed the concerns and recommendations in the report. Both have been attachments in recent emails, but I will resend if requested. I suggest that we start with an email discussion and meet before the senate meeting next week to either provide a statement or not.

Eric and Jayne: Since you chaired the review committee can you start the discussion?
